## **Graco Announces: MCC Equipment & Service Center Top 20 FPE Distributor**

*Another Year, Another Milestone*

**Plainfield, IN (MARCH 8, 2023)** – MCC Equipment and Service Center (MCC), one of North America’s leading polyurea and spray foam distributors, has again been selected by Graco as a Foam & Polyurea Equipment (FPE) Top 20 Distributor. Graco established this recognition program to define the top-performing distributors in North America.

“All I can say is a giant thank-you to our awesome customers,” said MCC Owner Jay Hutchek. “We simply wouldn’t be here without them, and this recognition shows that we are doing things right!”

According to Graco, the Foam & Polyurea Equipment (FPE) Top 20 Program recognizes their top-performing North American distributors “for their industry knowledge and dedication to A+ customer service.” This marks MCC’s **12th consecutive year** earning this honor.

Hutchek added “Working with Graco as one of their recognized FPE Top 20 distributors means we have access to all the resources we need to deliver the most in-demand products and the best, most reliable, and most-consistent service to our customers. Our team has unique access

to product knowledge and Graco's team of technical services representatives that reinforce our own expertise, and we use every bit of it."

MCC is one of North America's leading polyurea and spray foam distributors, specializing in nationally known products, expert service, high-quality equipment sales, and customized, turn-key rigs for professional contractors. With a diverse, on-hand inventory of equipment, materials, parts, accessories, and even PPE, MCC offers solutions to the most pressing challenges facing contractors today. "This proves it," said Hutchek.

### **ABOUT MCC**

Founded in the early 2000's in central Indiana, MCC is owned by Jay Hutchek, an industry veteran with over two decades of experience in all facets of the poly and foam industries. The same holds true for MCC's expert sales and service team members, having worked for equipment manufacturers or as poly applicators themselves. At MCC, customer needs come before everything else.
